Product Catalogue Private Label

BECOME A SKINCARE BRAND OWNER FROM THE COMFORT OF YOUR HOME!

Launch or expand your beauty business faster by putting **your logo** on our ready-made formulas!

Here, you will find the many high-quality products we offer in our private label catalogue. These cosmetic products have already been formulated by our experts to help you save valuable time, reduce development costs and bring your brand vision to life—faster.

READY-MADE FORMULAS

Developed by cosmetic experts

HIGH-QUALITY INGREDIENTS

Carefully selected for efficacy and safety

WIDE RANGE OF PRODUCTS

Face care, body care, hair care and more

SAFE & RELIABLE

Formulated with quality and compliance in mind

YOUR BRAND, YOUR IDENTITY

Add your logo and launch with confidence

QUALITY YOU CAN TRUST

| FORMULAS THAT WORK

| BRANDS THAT GROW

M.B. Cosmetics
Laboratory

Process of Private Labelling

1

PURCHASE YOUR SAMPLES

We're so excited that you are considering our products for your line! Select the ones that you would like to try for your brand.

Timeline: 2 weeks.

2

TRY YOUR SAMPLES

Have fun with your samples. Test them and ask a friend to try them as well. An external opinion will help you decide what products to add to your line. Then, let us know your final choices.

3

REGULATORY COMPLIANCE

Depending on the country you are in, you will have some light steps to take to be compliant with your cosmetic regulation. Let us know so we can guide you!

4

ORDER YOUR PRODUCTS

Thank you for selecting us as your lab! Let's make your products a reality. It is now time to manufacture your new line! Timeline: 2-8 weeks.

≡ Happy selling! ≡

IMPORTANT INFORMATION

Please read the key information below to ensure a smooth experience when choosing and ordering our products.

If you have any questions, we are always here to help.

SAMPLES

If you would like to try one or more of our products, email us at contact@mbcosmeticslab.com to receive a quote, with your business name, business & shipping addresses, VAT n°, the products you wish to try and the number of samples per product.

As a standard offer, our samples come in 30–50ml for leave-on products and 50–100ml for rinse-off products.

LABELLING REQUIREMENTS

Please have a look at every product page for the correct INCI lists. Your labels have to be translated into the official language(s) of all the countries you plan on selling to. Some of these countries only have 1 language, others have 2 or 3, and that needs to be taken into account. Please also remember that you can't use cruelty-free logo in Europe. Any other logos: you need to verify that you don't have to pay anything for them or that you pay what you owe before using. Our lab's info needs to appear on your labels underneath your company's information as we remain the RP of these white label products. Please ask for our labelling guide for more detailed information that will help you create your label designs accurately!

PRICES

All prices are shown excluding VAT, excluding shipping costs (calculated based on total weight), and excluding packaging costs (each client has different preferences when it comes to bottles and jars). This catalogue is updated every 6 months to reflect the market prices (only if suppliers change their prices).

SIZES OF PRODUCTS

In this catalogue, we show you preliminary prices for our products in standard formats. If you wish to increase or reduce the size of these products (i.e. from 50ml to 30ml or from 150ml to 250ml), please reach out to us with your request and we will re-calculate the production costs for you.

PACKAGING

We do show several packaging options at the end with their MOQs and prices. These are standard & luxury packaging that are available in low MOQs. They are not customisable. If you do not like any of the options shown or if you would like customisation options, we will be happy to receive the packaging from the supplier you will have selected.

SHIPPING

We use UPS or DHL for shipments. Large orders are automatically shipped in pallets with DHL. Our laboratory is located in Brussels, Belgium. If you wish to forgo delivery fees and come and get your products at our warehouse, this is possible. We will arrange a time and day with you once your order is completed.

LABELLING

While we can apply your labels and even order them for you, you are responsible for creating the label designs (but we check out to us for the mandatory information you need to put on there). Our standard labelling fees vary between 0,15–0,5€/unit excl. VAT (depending on order to and can include the cost of printing labels) We usually work with Avery as they are affordable, have low MOQs, are fast and offer several sticker materials to choose from. But we are happy to work with whomever you prefer!

CUSTOMISATION

If you love one of our products and you wish to include it in your line but with some changes, this is possible. However, it comes at a cost. There are 2 types of costs associated with this request: re-formulation fee (depends on changes needed) & regulatory fee (can be very low if it's only a matter of updating the documents with a new scent or can increase if more substantial changes require to re-do all the testing). The IP rights of the formula remain with MB Cosmetics Lab so you need to ask yourself whether it is worth it.
